PROFILE

Student in second year at the Central Private School of Computer Science and Telecommunications of Tunis IT sector, I am passionate about the Hi-Tech field as well as graphic design. I like to be informed of new technological trends by trying my best to put them into practice. As a tech enthusiast, I was able to participate in several projects and hackathons. I am also the founder of moonLabCoding which has the role to demistify Tech and produce app for people.

WORK EXPERIENCE

Member of communication and digital department.

WINO CLUB , Université Centrale de Tunis Nov. 2022 - now

As a Member of the Communication and Digital Department at the Wino Club, I collaborated with a talented team to develop and execute marketing strategies that increased engagement and grew the club's membership base. This experience taught me the importance of effective teamwork and collaboration, and provided me with valuable skills in communication, marketing, and digital media.

Web Developer intership

YULCOM Technologies Jul. 2022 - Août 2022

During my web developer internship, I worked with technologies such as Flask, JavaScript, MongoDB, PostgreSQL, and PHP. My main role was to learn how to develop websites functionalities using these technologies. I gained strong experience in developing adaptive and responsive websites, as well as in teamwork. Through this internship, I also developed my problem-solving skills and collaborated with team in a company.
